

- Permanent resistant to water, weather and UV
- High adhesive strength in cold and heat
- Robust and tear resistant

Packaging

	Roll length [m]	Roll width [mm]	Box contents [units]
PAVATAPE 75	20	75	8
PAVATAPE 150	20	150	4

Characteristics

Material	butyl rubber with aluminium carrier
Thickness [mm]	0,8
Minimum substrate and ambient temperature with PAVAPRIM [°C]	-10
Application temperature product [°C]	+5 to +40
Temperature resistance [°C]	-40 to +100

Product description

PAVATAPE is a butyl rubber tape for waterproof, weatherproof and UV-resistant sealing of board joints, connections and penetrations in PAVATEX insulation and sarking systems. When gluing to woodfibre boards or other porous or mineral surfaces, the primer PAVAPRIM is preliminary applied. Always consult the local regulations and installation guidelines of the manufacturer.

Health, Environment and Safety

This product does not contain any substance which is likely to be detrimental to your health or to the environment and complies with generally admitted Health and Safety Requirements.

Storage

Store cool and dry, protected from sunlight.
